Senator Vance is eager to secure the position of the Shakespearian gentleman who seked to be written down an ass. He would fain have the newspaper men who furnish to their papers an account of what is done in legislative circles subject to imprisonment. Mr. VANCE entertains the refreshing view that the work of the Senale is the " private business of the Senators." The public which selects men, sends them to Washington to attend to the public's interests and pays them liberally for their diguified labors in its bendif, will hardly accept the doughty Henator's opinion that the work of Senators is their " private business." A St. Louis audience has indulged in a beautiful criticism on a play. The play was luridly bad. The Evening World will give in this contest an elegant stand of colors or banner, richly embroidered and made by the well-known firm of Grumbach & Grote, of 125 Hudson street, this city. The finest silk will be used, and the embroidering will take from six to eight weeks to do.

The other prize which may be chosen in place of the colors is an \$800 Weber piano, overstrung scale, three strings, patent action, and may be had in rosewood, wainut, melogany or ebony, at option of winner. The fact that it is manufactured by Weber guarantees that it is first class in every respect.

The winner of the prize will be determined by ballot. The subordinate lodge, club, assembly or other local organization in New York, New Jersey or Connecticut which receives the highest number of ballots shall be declared the winner, and shall determine at its next regular meeting after the ballot is closed whether it prefer the banner or the plano.

When the winner has been decided the vinning organization may decide in full meeting which of these two royal prizes would be preferable—a magnificent banner.
